

## Realising the potential of your project

Sycamore Developments is an established and highly experienced project and construction management company

Our business offers a selection of services, ranging from private commissions, for the design and build of new family homes, through to comprehensive services for Investment Companies developing properties for sale.

We pride ourselves on our high standard of service, our ethical approach to work and we always aim to ensure our clients' experience with us is one that exceeds their expectations.

Sycamore Developments can help you, if you're a...  
... **Home Owner**, wanting to realise the maximum equity potential in your property, or wanting to create and build the house of your dreams.  
... **Property Investor**, wanting to hand over all aspects of the management of your build, leaving you able to focus on your next important deal, whilst knowing your investment is in safe, expert hands.

If you have said yes to either of these, we believe we have the solution you're looking for.

- High quality, extensive project and construction management service.
- Transparent financial management and responsibility, whilst ensuring you have overall control and ownership of all spending.
- Flexible approach and established processes, in order to meet your bespoke and specific requirements.
- Central and consistent point of contact throughout the project, from conception through to completion.

Please do call or email if you'd like to discuss your plans further, with no obligation, but we guarantee you'll find it of interest!

If you haven't already had the chance, please do read the article 'All in the Detail' on page 198. This will give you further insight into our company, our approach and the sorts of clients that have used our services so far.
